

Irrigation Tune-Up Rebate

Buffalo
CITY OF BUFFALO, MINNESOTA

Tune-Up your Sprinkler System and save money!

Before you ramp up your landscape irrigation, be sure to tune-up your watering system. Routine maintenance can help you save a lot of money and water!

Every system owner should take time at the start of each watering season to personally **Inspect**, **Connect**, **Direct** and **Select** their equipment.

City of Buffalo water customers can receive a **\$50.00** utility bill rebate (on existing irrigation systems) for getting a system tune-up from an irrigation contractor.

[Find more information on the opposite side of this flyer.](#)

DID YOU KNOW?

A broken sprinkler head could cost you an extra \$280 during a six-month irrigation season.

A leak as small as the tip of a ballpoint pen can waste 6,300 gallons of water.

Experts estimate as much as half of the water used outdoors is wasted by inefficient irrigation systems.

Inspect

Check for clogged, broken, or damaged sprinkler heads.

Connect

Examine connection points of heads, pipes, and hoses.

Direct

Aim sprinklers so they are applying water only to the landscape.

Select

Purchase an efficient controller suited to your watering needs.

WaterSense Logo**

Irrigation Tune-Up Rebate Application

TUNE-UP CHECKLIST

Submit a completed copy of this application and an invoice to receive rebate.

- ☐ **CONTROLLER** Clean, check settings, change backup battery.
- ☐ **SPRINKLER HEADS** Check for obstructions, remove dirt and debris.
- ☐ **DETERIORATION** Replace broken, leaking and worn nozzles, valves, pipes, and other items.
- ☐ **PRESSURE** To avoid damage from a water pressure surge, open valve slowly when restoring water, and make sure pressure is within suggested operating range.
- ☐ **SPRAY** Direct sprinkler heads to avoid watering the street, sidewalk, driveway, etc.
- ☐ **INSPECTION** Contact Cara Hesse at 763-684-5432 or cara.hesse@ci.buffalo.mn.us for irrigation inspection and "sign-off" as the last step before submission of rebate form.
