Overview

The City of Buffalo is completing a street maintenance project to improve and extend the life of streets in several areas.

The improvements will consist of a new bituminous surface on the roadway. All improvements are paid for by the City of Buffalo and not subject to special assessments.

Project Schedule

The Contractor has submitted a project schedule summarized below. The schedule is subject to change due to weather and unforeseen circumstances.

Cardinal Way:

- Reclaim (Grind Up In Place) Bituminous Roadway and Grading – September 7 – 9th
- Curb and Gutter Spot Repairs (2 days) – September 12 – 16th
- 1st Layer of Bituminous Overlay (1 day) – Week of September 12th
- Final Layer of Bituminous Overlay (1 day) – Week of September 19th

7th Ave. NE:

- Reclaim (Grind Up In Place) Partial Sections of Bituminous Roadway and Grading (2 days) – September 7 – 13th
- Curb and Gutter Spot Repairs (2 days) – September 12 – 16th
- 1st Layer of Bituminous Overlay (1 day) – Week of September 12th
- Final Layer of Bituminous Overlay (1 day) – Week of September 19th

Atlas Ave:

- Mill Bituminous Surface (1 day) – September 12 – 13th
- Curb and Gutter Spot Repairs (2 days) – September 12 – 16th
- Bituminous Surfacing (1 day) – Week of September 19th

Access

Access to properties within the project areas will be maintained throughout the majority of the project. If any spot curb and gutter repairs are required in front of your driveway (it will be marked with paint if it is being replaced), you will not be able to drive over the new curb and gutter for a period of 7 days to allow the concrete to fully cure. If spot curb and gutter repairs affect access into your driveway, you will be contacted by the contractor in the field prior to the new curb being constructed.

Questions

If you have any questions or concerns regarding the project, please feel free to contact any of the contacts listed on the left.

Irrigation Systems & Underground Dog Fencing

If you have an underground irrigation system or dog fence at your property, please mark the location of any sprinkler heads and irrigation lines or wires that are located near the curb line wherever there is curb that is marked with arrows for removal and replacement. If items are marked, the contractor will do their best to protect the existing items during curb repairs. However, it might be possible that they will still be damaged due to the proximity to curb repairs. Damages to any items such as irrigation systems, dog fences or similar located within the public right-of-way will not be repaired or replaced by the City or the Contractor. The property owner will be responsible for repair of these items.
