

Dague Avenue Improvements

The City of Buffalo will replace deteriorating roads along Dague Avenue. Roadways will be regraded, widened and repaved for an upgraded corridor. Improvements will be made to streets, storm sewer and pedestrian facilities, including the installation of a roundabout. Road work will be a multi-phase project scheduled to begin in September 2021.

Current Conditions

STREETS AND TRAILS:

The rural sections of Dague Avenue and 30th Street are deteriorated and exhibit significant cracking, potholes and settlements. Both streets have ditches on both sides of the road with no shoulders, turn lanes or pedestrian facilities.

DRAINAGE:

Storm water drainage in this area currently discharges into several drainage ditches and wetlands located east of Dague Avenue.

ROUNABOUT:

The Wright County intersection of Dague Avenue and 30th Street is a high speed, signal controlled intersection without pedestrian crossings. There is a high volume of traffic due to the proximity of Buffalo High School.

Proposed Improvements

Improvements consist of new turn lanes near the high school parking lots, 30th Street, Buffalo Ridge Dr., Copper Creek Ln. and Arbor Drive (near Arbor Meadows Development). A trail will be constructed on the west side of Dague Ave. and the south side of 30th Street, connecting multiple existing sidewalks and trails.

The drainage system includes replacing the west ditch on Dague Avenue and both sides of 30th Street with curbs, gutters and storm sewer. The east side of Dague Avenue will retain the ditches and culverts.

Roundabouts naturally reduce traffic speeds, while providing improved mobility and safety for pedestrians and bicyclists. Roundabouts move traffic through intersections safer and more efficiently, mitigating effects of increased traffic as a result of city growth.

Project Timeline

Dague Avenue updates will begin in September 2021 and continue through October of 2022. Motorist can expect road closures and posted detours.

Construction of the roundabout will begin June of 2022 and conclude before the start of the school year. During summer months, the intersection will be completely closed with posted detours.

See back side for detour details.

What to Expect

Portions of Dague Avenue will be closed for reconstruction from September 2021 to August 2022. See the maps below for specifics on planned closures, timing and detour routes. Trail construction and other work not requiring complete roadway closures will continue through October 2022.

Sept. - Dec. 2021

Phase One:
Dague Ave. closed north of Buffalo High School.
Detour via Calder Ave. to 30th St.

April - May 2022

Phase Two:
30th St. NE closed west of Dague Ave.
Detour via Dague Ave.

June 2022

Phase Three:
Dague Ave. closed from 30th St. to Buffalo Ridge Dr.
Detour via Pulaski Rd. to 40th St.

Mid-June - August 2022

Phase Four:
Intersection of Dague Ave. and Co. Rd. 35 closed.
Dague Ave. closed from 40th St. to Buffalo Ridge Dr.
Detour via Co. Rd. 35, Calder Ave., Co. Rd. 34, Edmonson Ave. and 30th St.
