

CITY OF BUFFALO, MINNESOTA

Buffalo is built to meet new and expanding business infrastructure needs.

Fiber/Internet:

- City-owned and operated symmetrical fiber service – 100mg speed
- Recent core switch updates creating expanded services and capabilities
- In addition to City-operated service, Spectrum (Charter) and CenturyLink serve the community

Electricity

- City-owned and operated electric utility serving most of town with competitive rates and significant load capacity
- Some areas serviced by Wright-Hennepin or Xcel Energy

Water/Sewer

- Wastewater plant built in 2009 providing excess capacity and meeting new MPCA requirements
- Upgraded water infrastructure with capacity for significant growth

Natural Gas

- Service provided by CenterPoint Energy/Minnegasco
